

Text Pets (First pet to Text Message)

The Hottest Toy this Fall and Winter

These pets are not just cute, but will communicate with their owners. Each pet comes with a unique name and a unique code. This code will activate communication between the pet and the owner via Text Message. The owner will get a message daily like "I'm hungry" or "Please play with me". Note: We do not charge the owner for the text service, but standard text rates apply.

We support all major carriers.

Try a Demo: Imagine you have one of these cute animals next to you and text the word "pets" to the phone number 41411.

Malone Services LLC: 304-283-6361
